About

Results-driven **Senior Product Manager** with over 8 years of experience leading complex technological transformations. Expert in building secure, internal AI ecosystems from inception to scale, specializing in **LLM integration, AI Agents and RAG architectures**. Proven track record in orchestrating large-scale M&A system migrations and driving operational efficiency across global business units. A former IAF Major (Res.) with strong leadership, communication and decision-making skills in high-pressure environments.

Experience

2022 - Present – **ironSource (Merged With Unity)** – *Senior Product Manager*

2024 - Present – Driving internal AI transformation and organizational efficiency:

- Spearheading a groundbreaking internal AI workspace that leverages the latest LLM technology within a secure environment to provide valuable business insights and boost employee productivity.
- Leading the development of an AI Agent and Expert system that connects to diverse internal knowledge bases and data sources utilizing advanced Prompt Engineering and structured data to deliver high-quality, contextual responses.
- Engaging in hands-on product tasks, overseeing the entire lifecycle - discover and understand the stakeholders needs from opportunity assessment and ideation to implementation, evolution, and eventual value.
- Actively monitoring product performance in production, using data-driven insights to inform decisions and ensure exceptional value and user experiences.
- Partnering with R&D and Data Science teams to design, build, and launch a variety of user-facing tools centered around generative AI and automation.

2022 - 2024 – Leading cross-functional infrastructure and large-scale M&A integration:

- Managed a suite of applications for HR, Finance, Procurement, and IT, ensuring the company's internal operational backbone supported global business units effectively.
- Collaborated closely with global stakeholders to identify pain points and drive impactful solutions with a mindset of continuous improvement.
- Orchestrated the complex system and data migration between iS and Unity following the 2022 merger, receiving high praise for seamless execution and business continuity.
- Worked as part of a specialized "Cross-Team" (Product, R&D, DevOps) to deliver scalable internal applications that streamlined corporate operations during a period of rapid organizational change.

2021 - 2022 – **mPrest** – *Senior System Engineer/Product Manager*

- Engaged the full cycle of product development from conception to in-depth data analysis, writing technical documentation, specification and wireframes, through collaboration with engineers to ensure accurate execution and overall product success.
- Tracked and improved product metrics to ensure consistent increases in product value.
- Collaborated with multiple departments and stakeholders.

2018 - 2020 – **Elbit Systems Ltd.**

2020 - 2020 – *System Engineer/Product Manager – Head of System Interfaces*

- Developed clear and compelling product requirements for new features as well as existing product enhancements, including business justification, technical feasibility and operational impact.
- Collaborated with numerous domestic and international stakeholders across various industries to develop a versatile and resilient information sharing platform.
- Tracked the progress of initiatives through the product development life cycle, while identifying risks and opportunities and ensuring stakeholders remained focus to their objectives.

2018 - 2020 – *System Engineer/Product Manager*

- Took full responsibility and ownership of products while defining and managing complex products and infrastructure in terms of functionality, UI/UX, and performance.
- Collaborated with the development team to prioritize and implement key product features across a range of products.
- Improved system usability by analyzing user data, conducting usability tests, and communicating with users.

2016 - 2017 **– Puzzle Projects Ltd. - Technical Writer and Foreign Instructor**

- Wrote installation and maintenance literature (ILS) - ILM/OLM/DLM
- Guided and instructed foreign customers

2005 - 2012

Filed Unit Officer in the IAF – *Air Defense Command*

Discharged at the rank of Captain (promoted to the rank of Major in reserves)

- Platoon commander
- Regiment operations officer
- Officer and second in command for an Iron Dome battery.
- First in command - company commander for an "Iron Dome" battery

Education

2013 - 2017

College of Management Academic Studies – *Bachelor's Degree in Business Administration*

Major in marketing, advertising and digital marketing

2001 - 2004

Gimnasia Realit E.Kaary – *High School Diploma*

Major in biology and earth science

Technical Skills

AI & Innovation	Generative AI, LLMs, Prompt Engineering, RAG, LiteLLM, Vector DB, NotebookLM, Google AI Studio, AWS-Bedrock, Google Vertex AI, Azure OpenAI
Cloud Platforms	AWS, GCP, Azure
Product & Ops	Azure DevOps, Jira, Confluence
Design & Prototyping	Axure, Figma, Flowchart
OS & Tools	MS-Windows, macOS, Linux-RHEL, Wireshark

Languages

Hebrew - Native proficiency || English - Full professional proficiency
